

HUNTER COLLEGE

Annual Report of Grants and Contracts

July 1, 1992 through June 30, 1993

OPENING REMARKS

During the past year, grants and contracts to Hunter College faculty and staff continued to be a vital factor to the quality of academic life at Hunter College. A decade of growth has brought us to a new College record of \$22,508,186. This marks the first time we have attained the \$20 million plateau.

Some highlights of the past year:

- Federal awards increased to \$11.4 million in fiscal year 1993 -- a 15.9% increase from 1992 and 46.5% from 1990.
- Awards from foundations jumped by three quarters of a million dollars from last year and have doubled from the level of five years ago.
- Support of research projects rose to almost \$9.8 million -- an increase of 13.6% in the last year.
- The faculty and staff of three academic divisions (Programs in Education, Sciences & Mathematics, and Social Sciences), two schools (Social Work and Health Sciences including the Center for AIDS, Drugs, and Community Health and the Center for Occupational Health and Safety), and three centers (Brookdale Center on Aging, Center for the Study of Family Policy, and the Center for Media and Learning) set new records for their respective areas.

Executives and staff members of government agencies, foundations, corporations and other nonprofit organizations continue to recognize the past accomplishments and potential achievements of our faculty and staff. We are pleased to congratulate all who had a part in setting a record for sustained growth at Hunter.

A Note from the Director

Grants and contract awards to Hunter College faculty and staff rose for the tenth consecutive year. This year's total exceeded the \$20 million plateau -- the final total surpassed **\$22.5 million** -- and improved on the previous year's total by 15.4%.

This report lists all the awards made to Hunter College during the past year. The statistics show major increases in Federal funding (15.9%), State funding (24.0%), and foundation support (19.2%).

Grants and contracts frequently assist faculty in attaining their research objectives. Awards for research projects totalled more than \$9.7 million from sources outside the University. When the figures for the PSC-CUNY Research Award Program and other internal awards are added, research projects were funded at a level of more than \$10 million. This year marked the first time that Hunter College passed that benchmark.

The staff of the Office of Research Administration joins me in congratulating our faculty and staff on their achievements. We hope you find the following report to be informative.

Grand Totals of External and Internal Funding

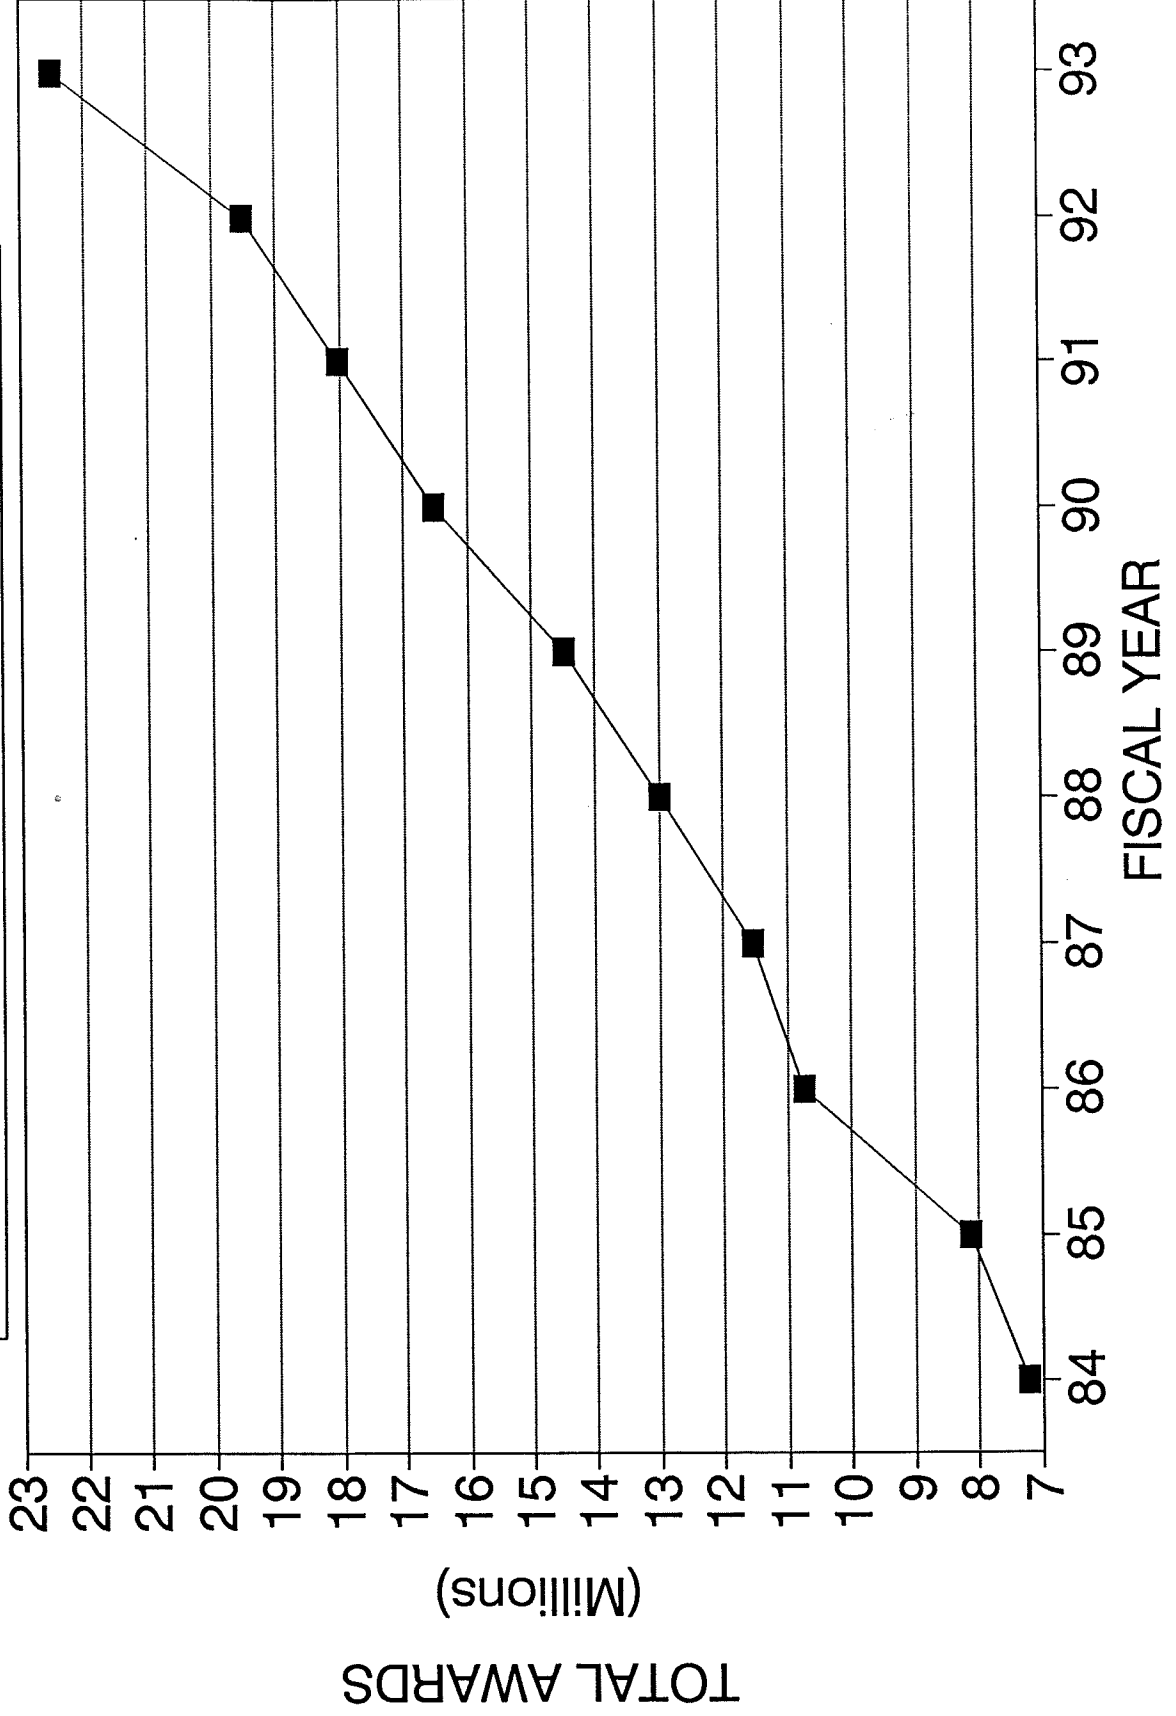

Section I-A OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies of Federal, State, and City governments, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the ten-year period beginning July 1, 1983.

For statistical purposes, although the Minority Biomedical Research Support and Biomedical Research Support research instrumentation grants are awarded for "sub-projects" to faculty members from four departments in two academic regions (Divisions of Sciences and Mathematics and Social Sciences), the grants are included only once in each division's project count.

Section I-B:

INDIVIDUAL PROJECT LISTING

This section's 63 pages list the individual projects that comprised the awards sponsored by external sources during fiscal year 1993 (July 1, 1992-June 30, 1993). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions. When fiscal responsibility for an award lies with a colleagues's institution, CUNY collaborations are counted in the dollar total shown, and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. "Type" indicates whether the award is new, a continuation (non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an on going project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the "status" gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

Section I-C: PROPOSAL SUBMISSIONS

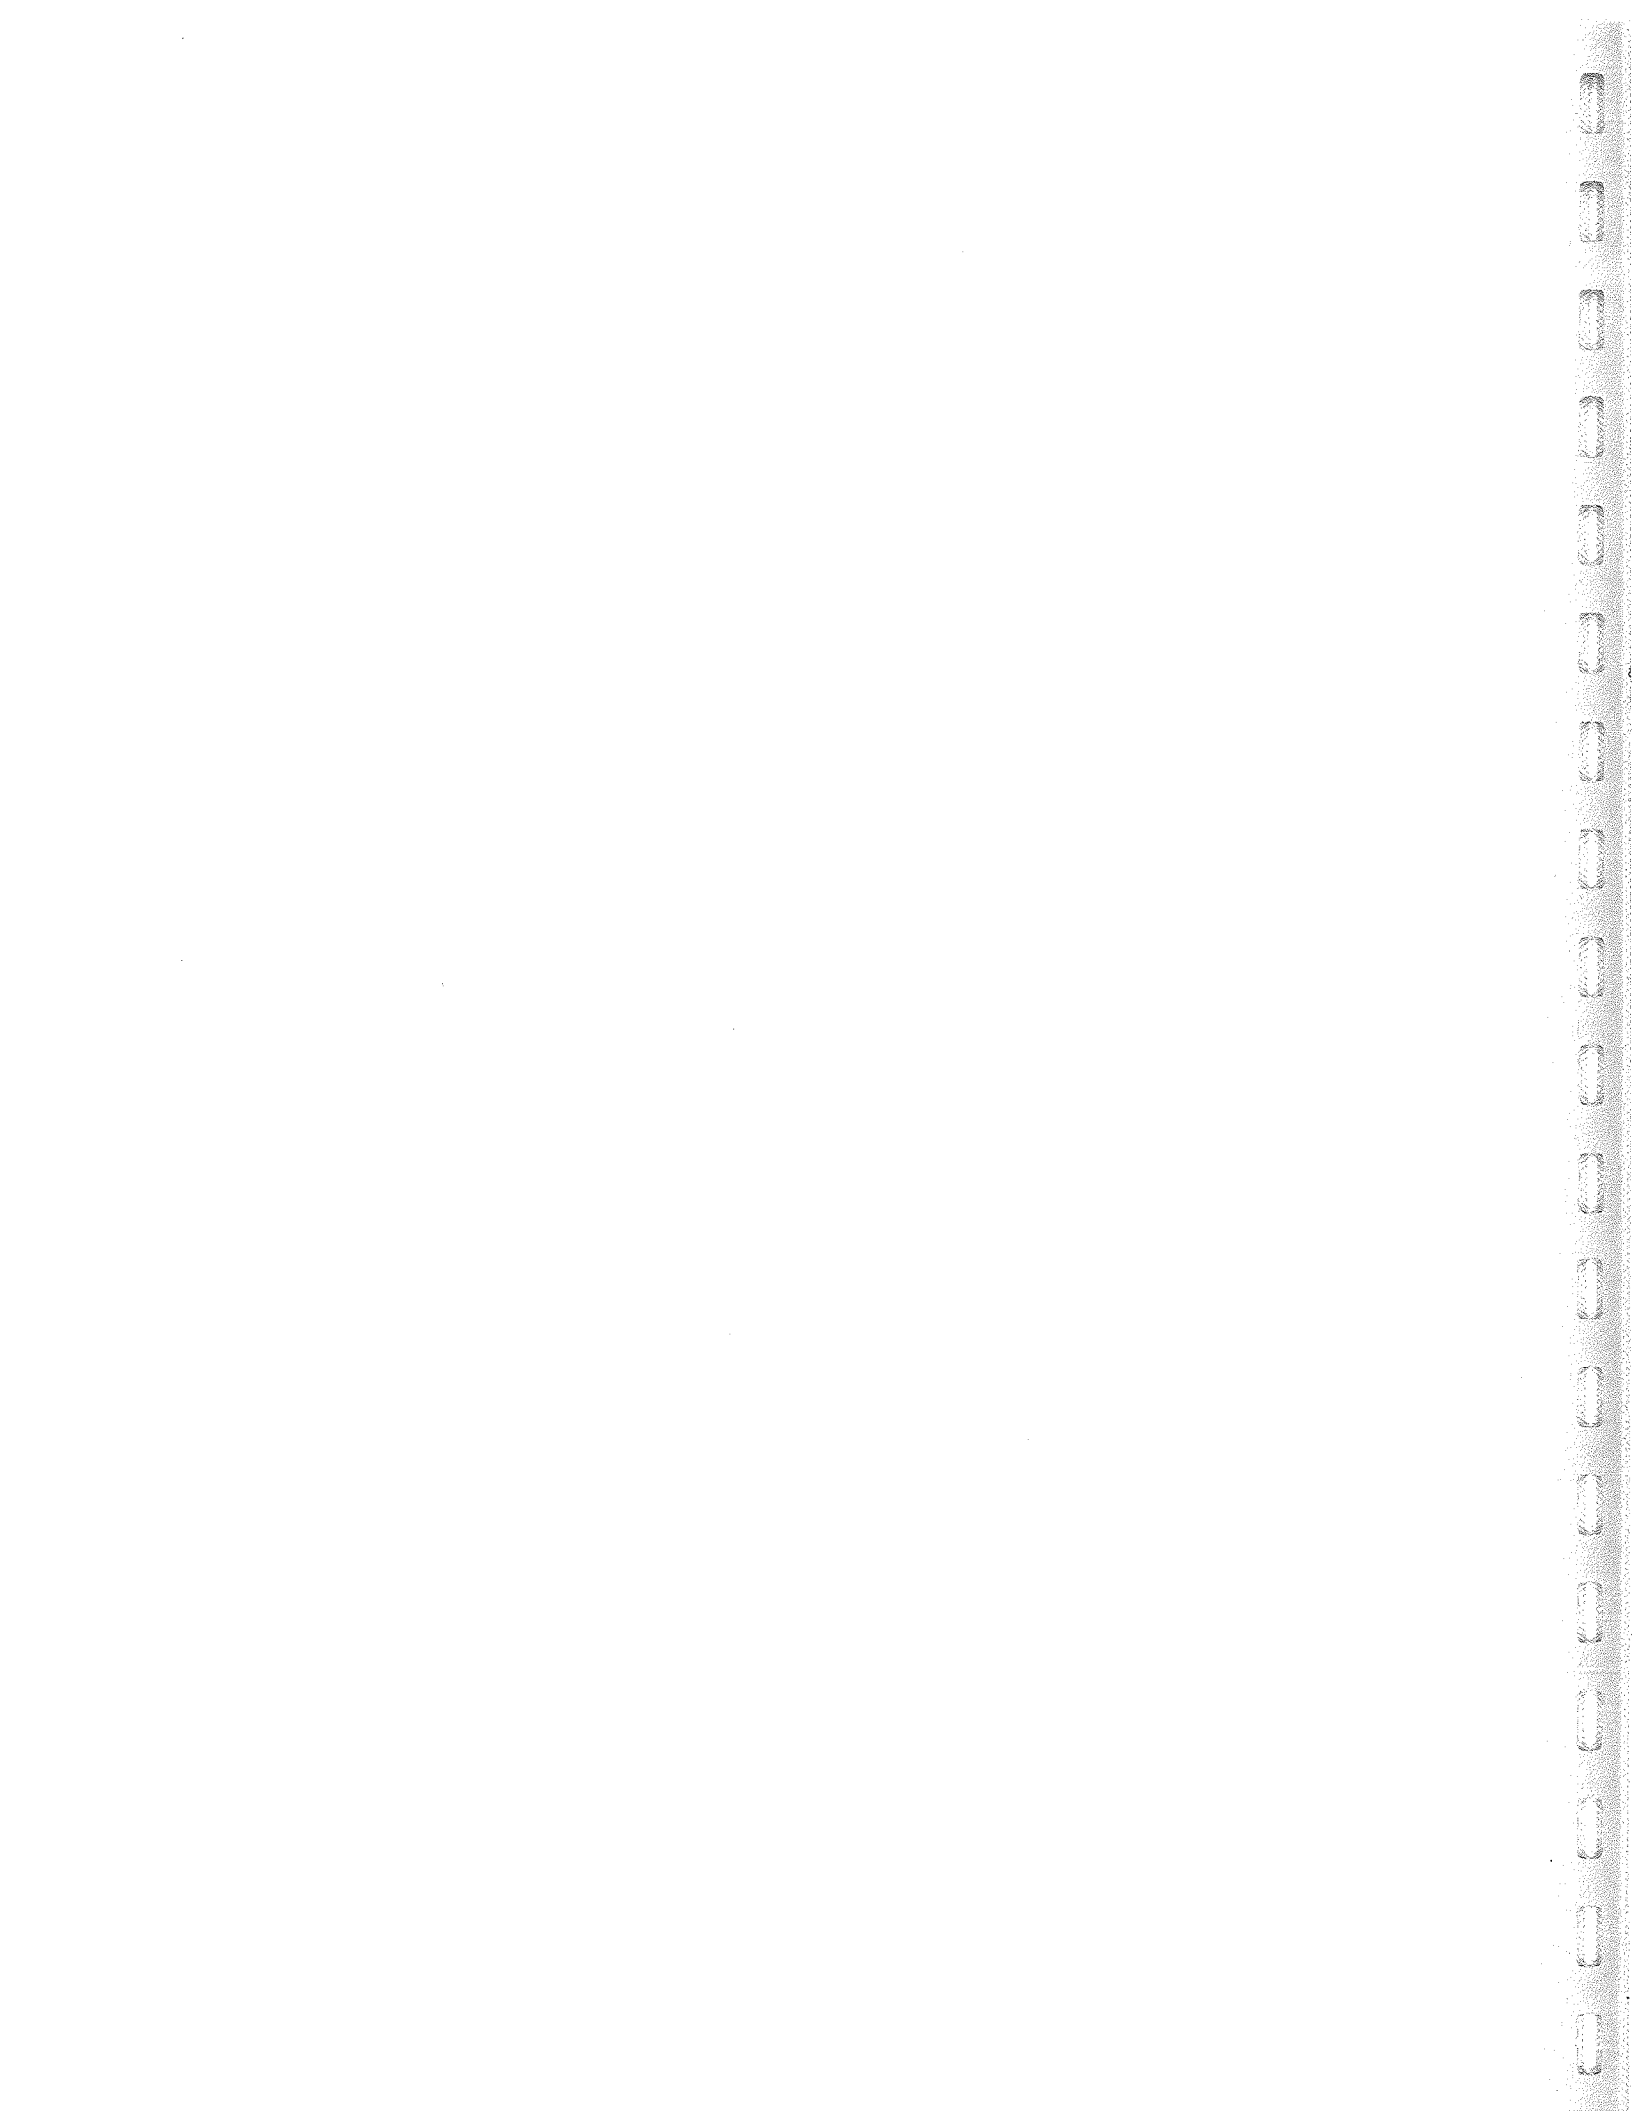

A total of 517 proposals was submitted in FY 1993.

The list of proposal submissions includes the following:

- a. proposals for new funding
- b. proposals submitted at the end of a funding cycle for review in competition for renewed funding
- c. progress reports which, although not competing with others for funding, must relate sufficient advancement towards the project's goals in order to gain the authorization for another year's support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are counted once.

Some statistical information is shown on the next several pages. The listing of individual faculty and staff applicants concludes this section.

Numerous applicants submit a proposal to more than one agency. Others submit more than one proposal for different projects.

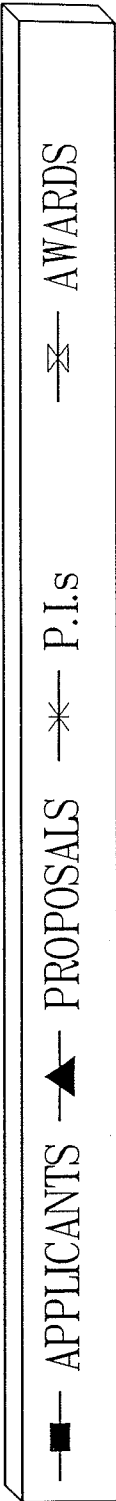

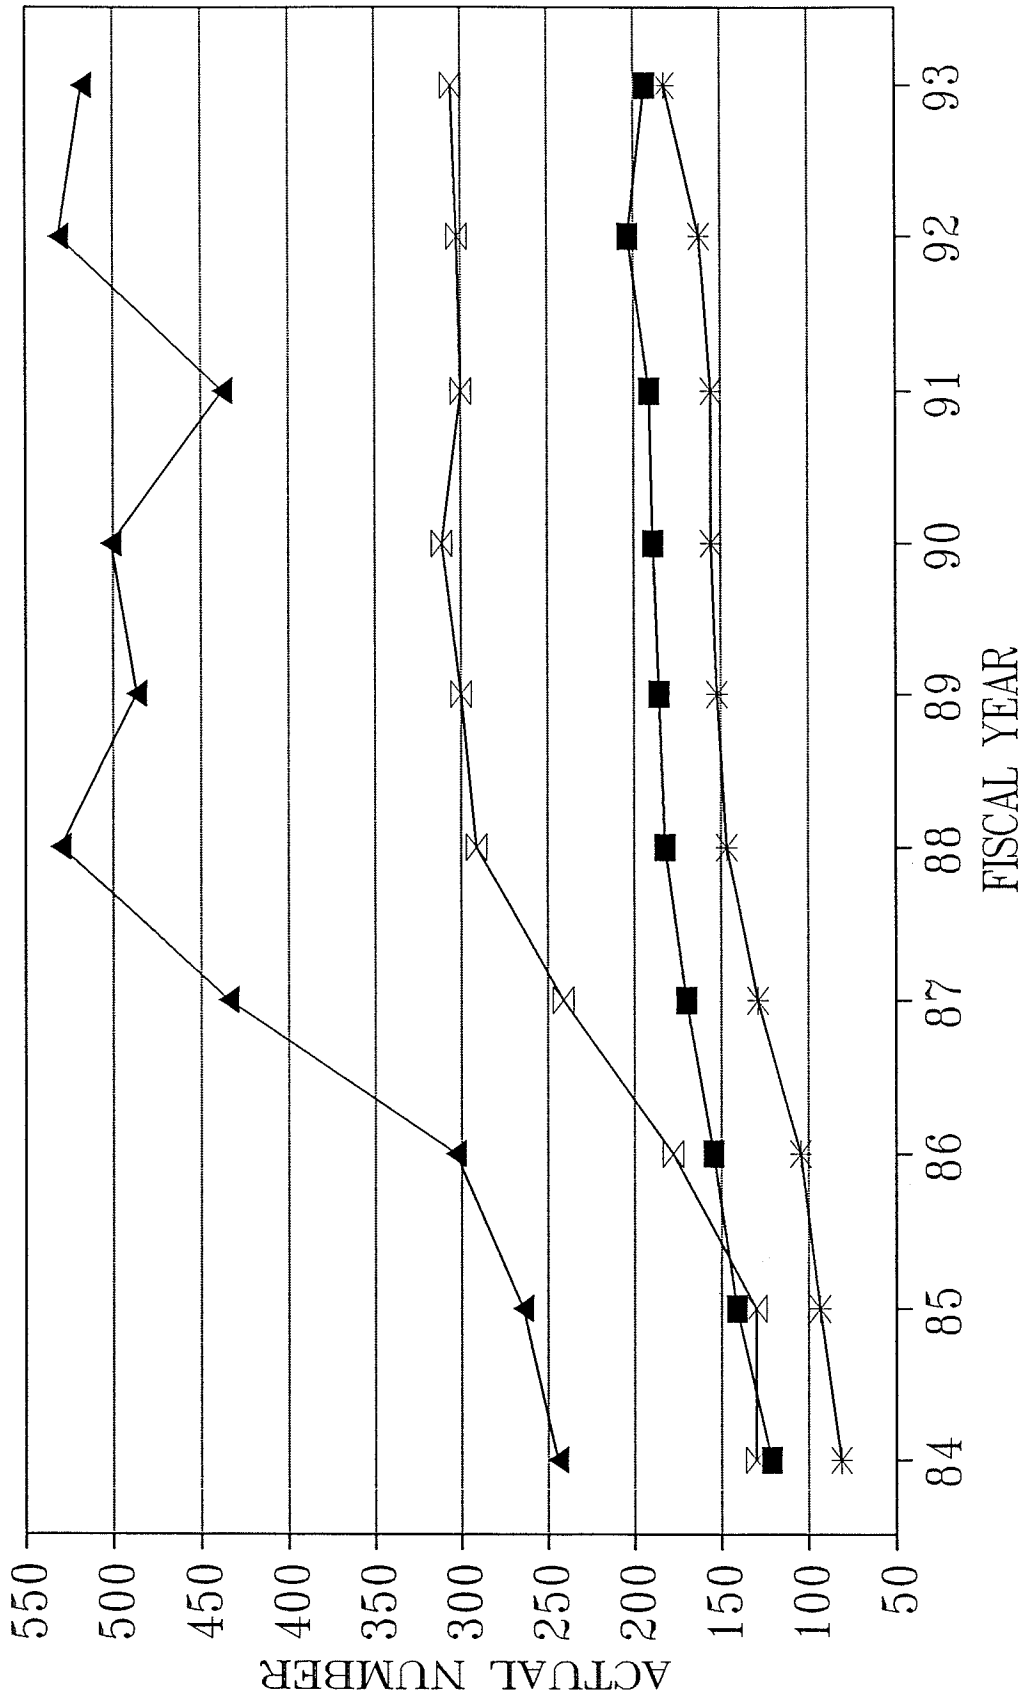

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

Shaded numbers highlight the years in which records were set for each category.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

Part II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from
College and University funds.

This part is divided as follows:

Section II-A. PSC-CUNY Research Award Program

Section II-B. Other Internal Support

Section IIA: PSC-CUNY RESEARCH AWARD PROGRAM

The Board of Trustees of the City University of New York (CUNY) and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support. The twenty-fourth annual competition was held during fiscal year 1993.

The difficult budget situation in New York State resulted in a third consecutive year of reduced funding in the size of new, renewal, and continuation grants.

The next page of this section gives a recent history of the participation of Hunter faculty in the program. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

OTHER INTERNAL SUPPORT

Hunter College and the City University of New York made grants to and recognized achievements of numerous Hunter faculty and staff. Among the programs providing funds were:

1. Hunter's Shuster Fund, established in honor of the late former Hunter College President, George N. Shuster.
2. Hunter's Pluralism and Cultural Diversity Fund.
3. Distinguished Professorships.
4. Eugene Lang Awards for Junior Faculty Development and Student-Faculty Research Fellowships.

In addition, this year we list the funds awarded by the Scholarship & Welfare Fund of the Alumni Association of Hunter College in support of the Mellon Minority Undergraduate Fellowship Program. The Scholarship & Welfare Fund has been most generous to the Mellon program since its inception.

Awards are listed by academic region on the following pages.

Part III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Totals of External and Internal Funding

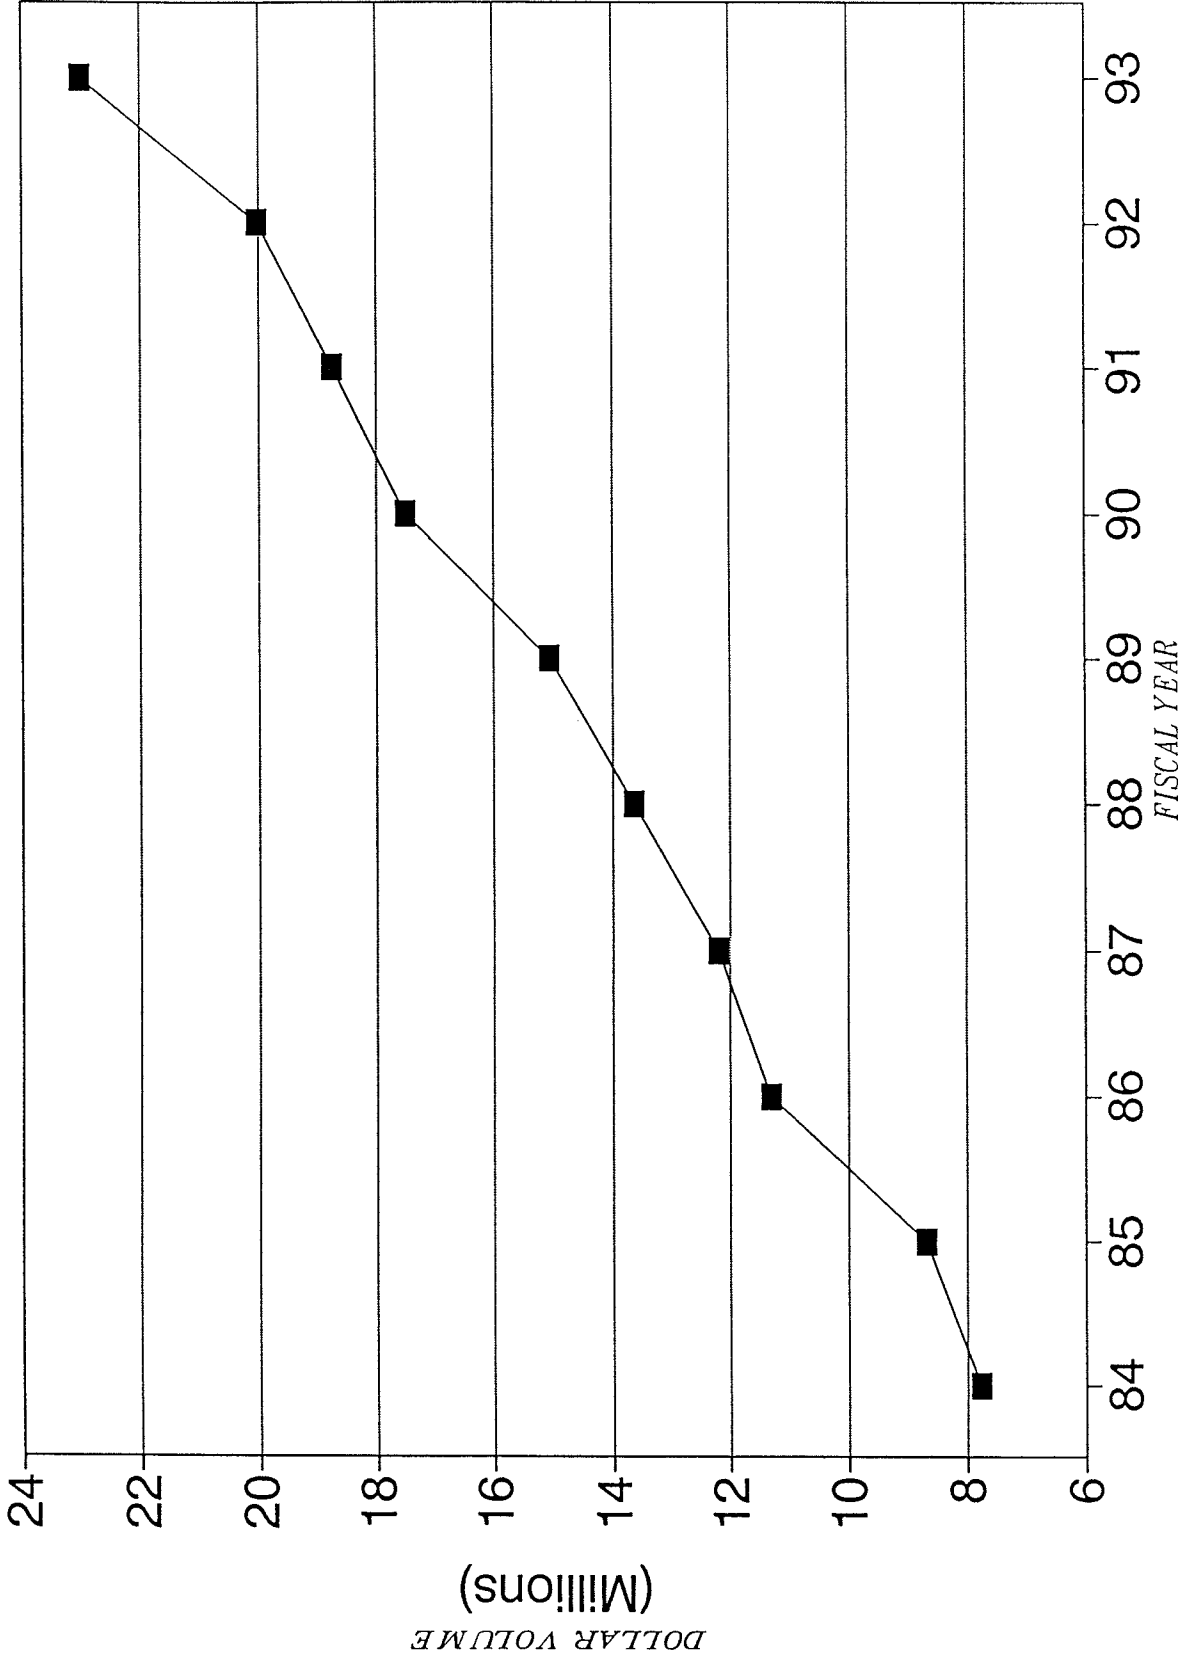

Overall Summary of Project Support

At the conclusion of this report, we present statistical tables incorporating all the award data available for the last 10 years. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowships and other grants awarded directly to faculty, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff.

This section shows a steady growth of project support over the past decade. In each year the dollar volume of the previous year was surpassed. As will be seen the numbers and amounts of the awards have risen by 197.7% during the last decade.

Acknowledgements

The staff of the Office of Research Administration takes great pride in assembling this annual report each year. The report chronicles the achievements of our faculty and staff, and we have great respect for the time and effort that are put into writing proposals and administering grants and contracts.

The data is gathered and formulated primarily by the full-time staff with some data input by our student assistants. The duplicating, collating and binding of the report is performed by our part-time student assistants who also watch for the quality of the copies.

This year brought a major change in staff, and I salute my staff for weathering the maternity leave of one of our colleagues, immediately followed by another's retirement leave. These happy events created an eight-month span during which the office was constantly working without one full-time staff member. In April, we were pleased to welcome a new Assistant Director.

Just another word about the retirement. **Priscilla Price**, Assistant Director of Research Administration from late 1976 until this past winter, took advantage of an early retirement opportunity. We were glad so many faculty and staff were able to join us to wish Priscilla a happy and healthy retirement at a reception in January.

I wish to thank my staff for assembling this report while keeping normal operations at their usual level of efficiency. My thanks to

Angela P. Clarke	Assistant Director
Carolynn Julien	Assistant Director for Sponsored Contracts
Barbara Medina	Grant Assistant Administration C
Lynda Ortiz	Administrative Assistant
Sydell Tyson	Senior Student Assistant
Annmarie Rivera	Graduate Student Assistant

Thanks also to my wife, **Lillian**, for contributing her computer programming skills.
