of
Grants and Contract

July 1, 2000—June 30, 2001

Message from the President

Throughout Hunter's history, its faculty and staff have been tapped by government and private funders for their groundbreaking and imaginative solutions to local, national and global problems in areas ranging from public health to education to biomedical research.

The far-reaching expertise on our campus has received no greater recognition than in fiscal year 2001. For the first time in its history, Hunter reached the \$30 million plateau in grant and contract awards. Research in the area of biomedical sciences rose by 33%. Training grants for prospective and in-service social workers, teachers, nurses and professionals in health-related fields also increased significantly.

Hunter continues its tradition of excellence by building on the strengths of its faculty and enhancing research and training opportunities for its student body. Since my arrival at Hunter, I have been impressed by the faculty's commitment to provide students with research training, internships and other experiences that will prepare them to be leaders in the 21st century.

My warmest congratulations to the faculty, staff and students who made 2001 a banner year in grants and contracts.

Jennifer J. Raab
President

Opening Remarks

June 2001 was memorable for Hunter College. Hunter's new President, Jennifer J. Raab, arrived on June 11th. The month closed the fiscal year with Hunter College having reached \$30 million in grants and contracts for the first time in its history, concluding a very successful year.

Grant and contract proposals at Hunter College are almost exclusively originated by faculty and staff. Thanks to their efforts the College was awarded more than \$15 million in federal awards, with another \$7 million coming directly from agencies of New York City and State. Collaborations with a multitude of non-profit organizations including prestigious universities and medical centers brought additional grants and subcontracts, with much of that money coming from government flow-through funding. Awards from foundations and corporations completed the mix of funding that supports more than 370 projects.

Notable among the new grants awarded in the year were:

- A Specialized Neuroscience Research Program grant was awarded by the National Institutes of Health, supporting research in Biological Sciences and Psychology.
- The Howard Hughes Medical Institute made a significant grant to Biological Sciences to support curriculum and program development.
- New federally-supported research grants in the Schools of the Health Professions, one of the projects in collaboration with the Center on AIDS, Drugs and Community Health, lifted the profile of research at the Brookdale Campus.
- Projects supported at the School of Social Work and the Brookdale Center on Aging have highlighted the talents of faculty and staff in preparing professionals in gerontology.
- New federal and state grants to the School of Education recognized the contributions of the College to bilingual education and the preparation of teachers of the visually impaired and severely multiply handicapped populations.
- The renewal of the Research Center in Minority Institutions grant heralded the achievements of many faculty in Biological Sciences, Chemistry, Physics & Astronomy, and Psychology.
- While a Distinguished Professor of Psychology was learning that his NIH research would be funded for the 40th consecutive year, that department's new faculty also gained funding.

We recognize the efforts of all who had a role in competing successfully for grants and contracts. This appreciation extends to the members of the Committee for the Protection of Human Subjects from Research Risks, the Institutional Animal Care and Use Committee, and the Institutional Biohazards Committee, as well as the faculty on policy and research committees in the many departments and schools which conduct pre-reviews and provide valuable feedback to improve proposals. Our thanks also to those who serve as mentors and informal advisors to our principal investigators.

Director's Remarks

After having stayed on a plateau of \$25-27 million for five years, Hunter College's grant and contract funding rose to \$30.1 million in fiscal year 2001.

We are particularly gratified by the recognition of the excellence of our programs, as evidenced by a 33% increase in federal funding.

Indicators for the next year, even in light of the terrible tragedies of September 2001, portend continued success for Hunter's grant applications in 2001-2002.

Our congratulations to all who had a part in making 2000-2001 a true Hunter odyssey, in which new funding opportunities were successfully tapped.

Director, Office of Research
Administration

SECTION I-A: OVERVIEW OF EXTERNAL FUNDING

This section contain statistical information on grants and contracts from external sources, i.e., agencies for Federal, State and City government, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning July 1, 1976.

Grants and contract have undergone remarkable growth since the late 1970's. Viewing awards in ten year increments, we used 1981 as the initial base year to illustrate growth.

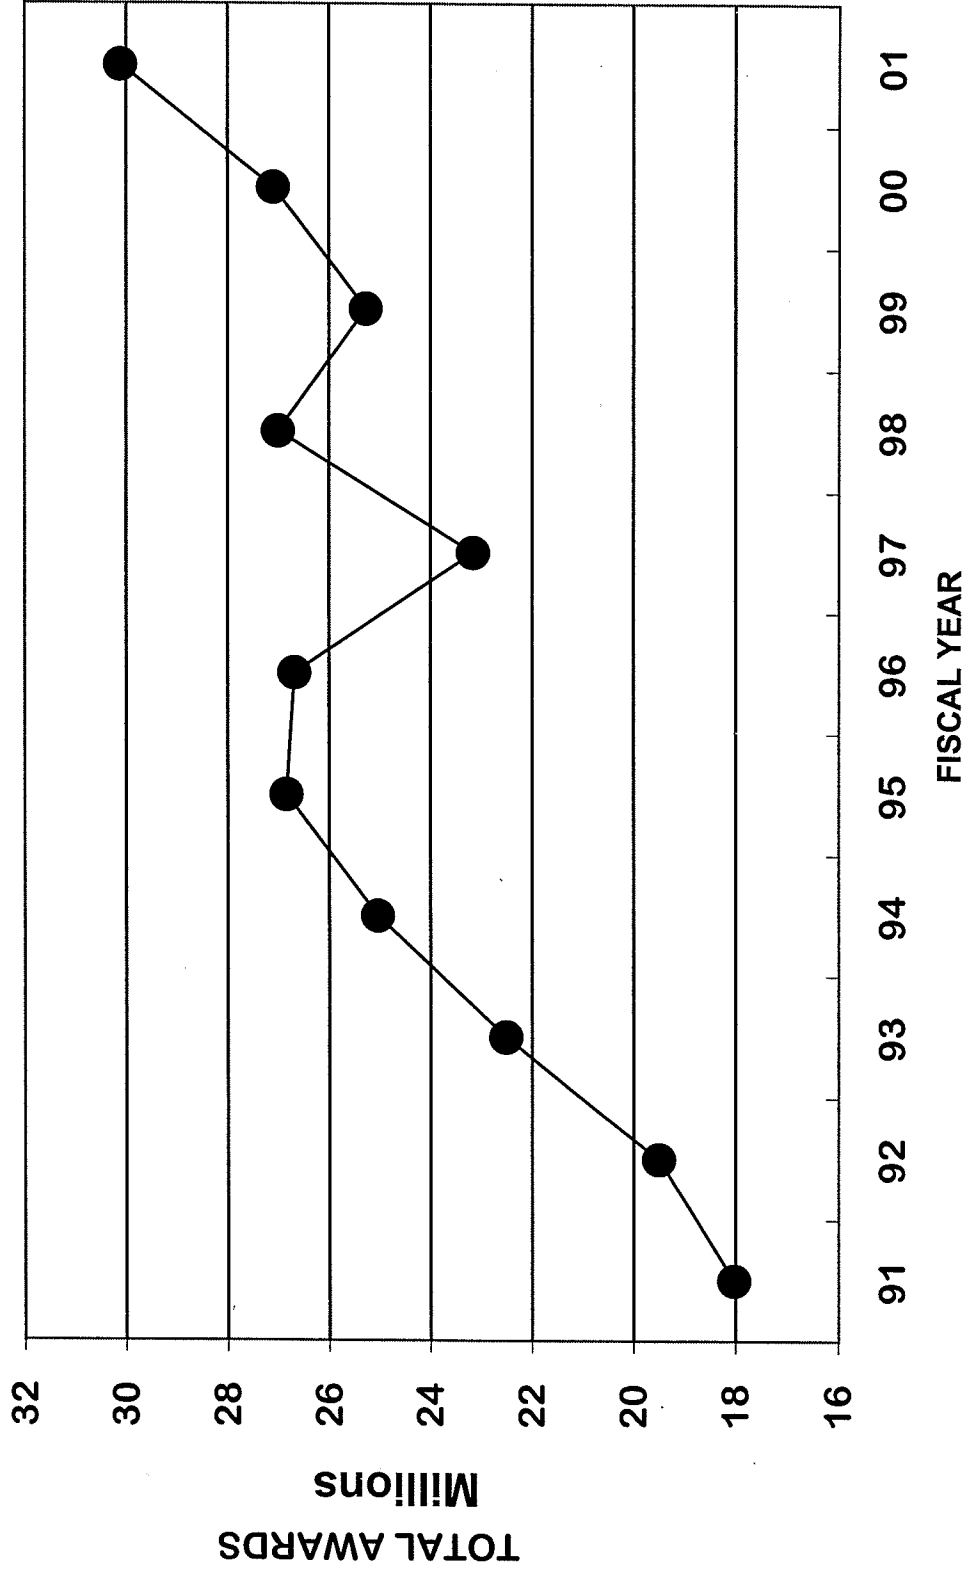

PERCENT INCREASE IN DOLLAR VOLUME BY SOURCE BY DECADE SINCE 1981

	<u>Federal</u>	<u>State & City</u>	<u>Non-Profits</u>	<u>Foundations</u>	<u>Total</u>
From 1981					
to 1991	85%	574%	409%	316%	175%
From 1991					
to 2001	69%	112%	71%	19%	67%

The 'mix' of sources of grants has also undergone tremendous change. In 1981, Federal grants represented 74.1% of that year's grants. In 2001, Federal grants constituted only 50.3% of our \$30,106,659.

The Center for Media & Learning (American Social History Project) joined Hunter College in fiscal year 1990; it was transferred to the CUNY Graduate School & University Center on July 1, 1996. 1993 marked the first full fiscal year for the Center for AIDS, Drugs, & Community Health and the Center for Occupational & Environmental Health. Grants for the two centers were previously shown with the School of Health Sciences.

SECTION IB – Individual Project Listing

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2001 (July 1, 2000 – June 30, 2001). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. When fiscal responsibility for an award lies with a colleague's institution, CUNY collaborations are counted in the dollar total shown, (the other portion directly relates to the Hunter person), and non-CUNY administered awards are listed but not counted.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. Type indicates whether the award is new, a continuation, (non competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the status gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

SECTION I-C: PROPOSAL SUBMISSIONS

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposal submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2002 Hunter College had 580 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

Some applicants submit the same proposal to more than one agency -- these proposals are counted separately. Others submit different proposals to one or more agencies.

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

Shaded numbers highlight the years in which records were set for the respective categories.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

PART II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

Section II-A PSC-CUNY Research Award Program

Section II-B Other Internal Support

The Board of Trustees of the City University of New York and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants may request a maximum of \$12,000 for research support. Junior faculty members may qualify for summer salary, bringing the maximum possible award to \$15,270. Proposals are peer reviewed by one of more than 30 disciplinary panels.

In the 33 years of the PSC- CUNY Research Award Program, Hunter College faculty and staff have been awarded more than \$10.4 million. Grants are designed to encourage research and serve as pilot and seed money for larger endeavors.

The next page of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

PARTICIPATION BY FULL-TIME HUNTER INSTRUCTIONAL STAFF IN THE PSC-CUNY RESEARCH AWARD PROGRAM

(Awards are announced in the spring semester preceding the starting date. For reporting purposes, we include the awards in the fiscal year during which they are announced.)

PART III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Total of External and Internal Funding

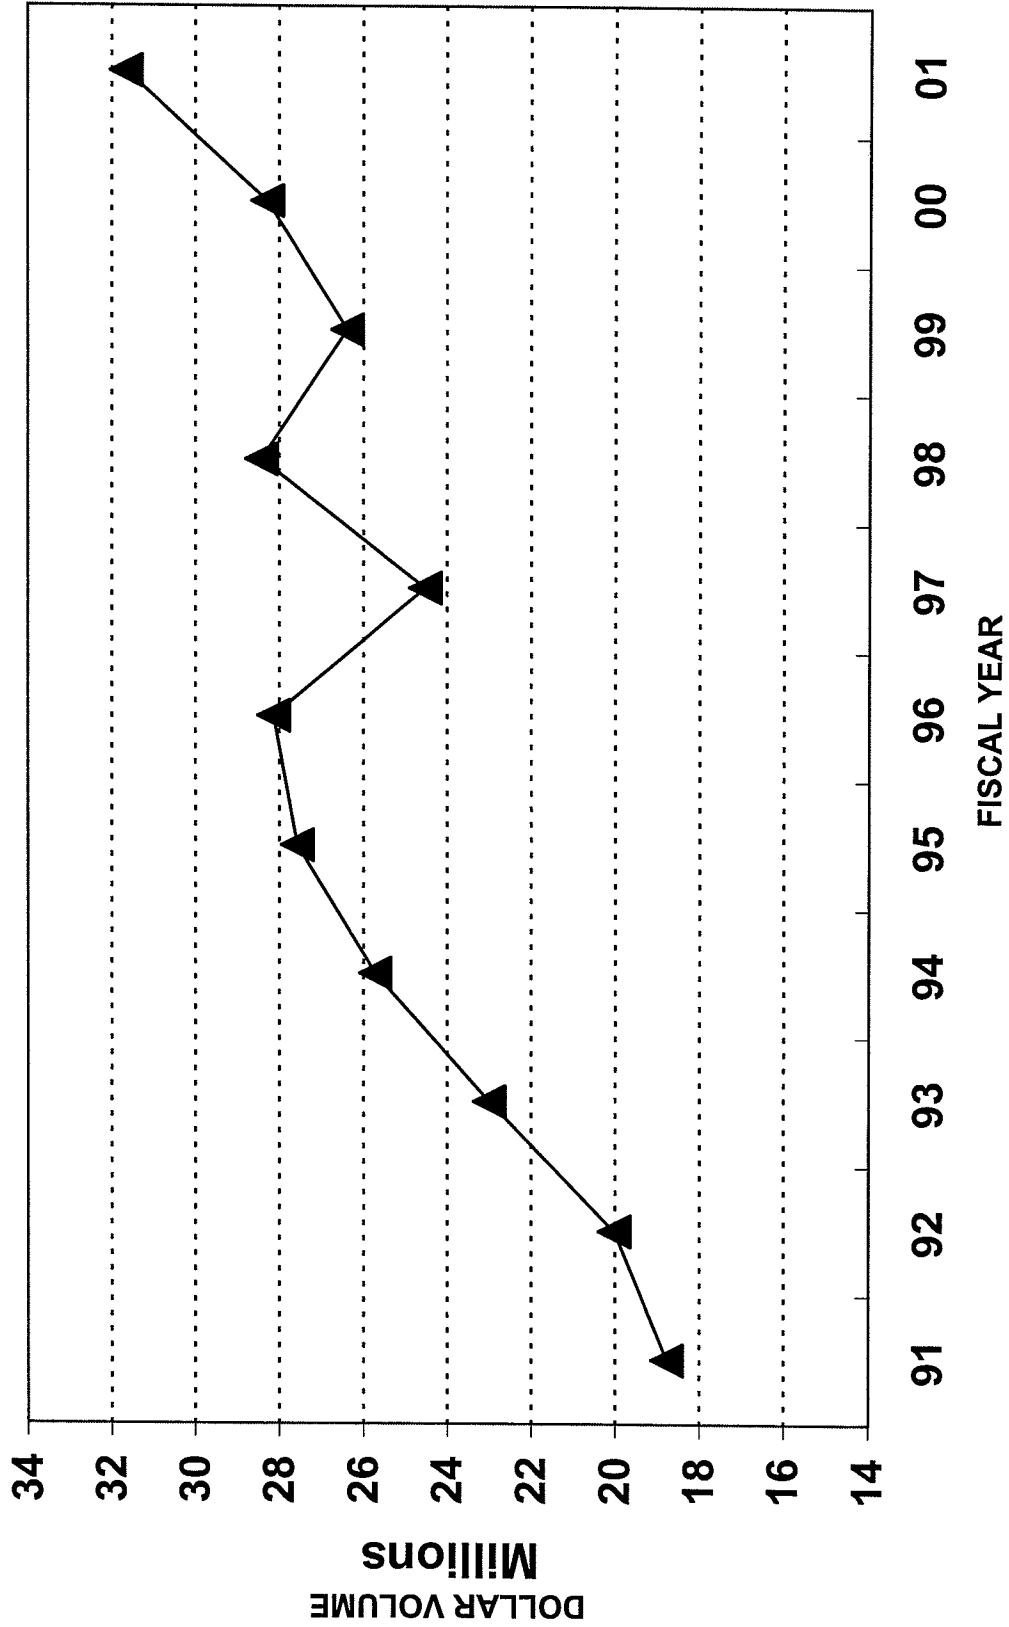

OVERALL SUMMARY OF PROJECT SUPPORT

At the conclusion of this report, we present statistical tables incorporating all award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.

Acknowledgement of Staff, 2000-2001

As Director of the Office of Research Administration, I am pleased to have the opportunity to congratulate all of those faculty and staff who have applied for funding.

As the years have gone by, we have seen new and ever-changing regulations from government bureaucracy. Personnel activity reports and financial disclosure forms have been a fact for more than a decade, and new training requirements for all researchers are on the horizon. The staff of Research Administration joins me in saluting all who made the extra effort it takes to prepare a proposal and to implement a project.

I wish to thank all of my staff for their participation in compiling this report while keeping normal operations running:

Carolynn Julien

Assistant Director (and responsible for the graphics in this report)

Barbara Medina

Assistant Director for Project Personnel

Annmarie Rivera

Assistant Director for Sponsored Projects

Ana LoBiondo

Senior Administrative Assistant

Judith Diaz

Administrative Assistant for Project Personnel

Tara Smith

Administrative Assistant for Regulatory Affairs

Malini Lall

Graduate Student Assistant

Michelle Guzman

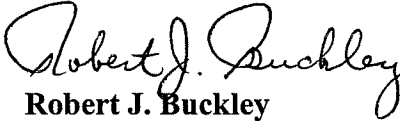

Undergraduate Student Assistant

Arkeyris Richiez

Undergraduate Student Assistant.

Two other student staff members, Sydell Tyson and Sharay Williams, left our employ during the 2000-2001 year, and we wish them well in their future endeavors. We welcome Haliana Laurimore and Michelle Marasigan, who joined us during the 2001-2002 year.

Thanks also to my wife, **Lillian**, for contributing her time to maintaining grant histories on individual faculty, and in circumventing a Y2K problem in our database.

Robert J. Buckley
Director

Additional Acknowledgements

On behalf of the Hunter research community, we extend our gratitude to the members of two committees which meet at least nine times a year to review research protocols involving human subjects and animals. These reviews are conducted in compliance with government regulations. The persons who served between July 1, 2000 and June 30, 2001 are the following:

Committee for the Protection of Human Subjects from Research Risks (also known as the IRB: Institutional Review Board)

Terry Mizrahi, Chair	School of Social Work
Elizabeth Barrett	Nursing
Robert Buckley	Research Administration/Staff to Committee
Bobby Cohen	Community Representative
Darlene DeFour	Psychology
Sherryl Graves	Educational Foundations and Counseling Programs
Amy Horowitz	Community Representative
Kenneth Levy	Psychology
Mary Anne McDermott	Nursing
Andrea Savage	Social Work
Carolynn Julien	Staff to the Committee

This Committee must review all research protocols involving human subjects. During this past fiscal year, 260 protocols were reviewed.

Institutional Animal Care and Use Committee (IACUC)

Cheryl Harding, Chair	Psychology
Jesus Angulo	Biological Sciences
Robert Buckley	Research Administration
Patricia Glennon	Consulting Veterinarian
James Gordon	Psychology
Dean Johnston	Health Sciences
Regina Linder	Health Sciences
Jeri Sechzer	Community Representative
Tom Terleph	Student Representative, Psychology
Shari Lewis Thompson	Community Representative
Barbara Wolin	Animal Facilities
Ana LoBiondo & Annmarie Rivera	Staff to the Committee

The IACUC must review protocols involving use of animals for research or instruction. During this past year, there have been 50 active protocols reviewed by this Committee.
