of the
City University of New York

Annual Report
of
Grants and Contracts

July 1, 2003—June 30, 2004

Message from the President

We are pleased to report that Hunter College has sustained a leadership position in obtaining grants and contracts for a variety of research and academic programs. Statistics compiled by the University show that Hunter faculty and staff led the colleges in grants and contracts with more than \$39 million for the fiscal year that ended June 30, 2004.

Renowned throughout its 135-year history as an institution of higher learning dedicated to providing quality education to the residents of the New York, Hunter College has also earned a reputation for excellence in research and service to the community.

Success in applying for grants in competition with public and private colleges and universities is one measure of the dedication, expertise and resourcefulness of faculty, staff and students.

I am pleased to congratulate and thank everyone who contributed to this effort.

Opening Remarks

It is a pleasure for me to note, once again, the significant achievements of Hunter faculty in obtaining external support for their research, scholarship, and contract activities. By CUNY's count, Hunter was responsible for more than 400 awards from federal, state, city, and private agencies totaling more than \$39 million.

Most members of the Hunter community are not aware that there are 600 persons on Hunter's Research Foundation payroll at any given time. During the course of a year, the grants are key in providing jobs, tuition support, and scholarships for more than 500 students.

We acknowledge the faculty and staff who put forth the effort to write and collaborate on proposals. We salute those who review proposals for government funding sources and for the College and University review panels. We thank those who direct projects and deal with the myriad and constantly changing documentation requirements connected to administering a grant.

The College administration is grateful to the faculty, staff, and community representatives who serve on the Institutional Review Boards, the Institutional Animal Care and Use Committee, and the Institutional Biohazards Committee. Their contribution is greatly appreciated.

I look forward to continuing to work with the Hunter community to promote research and scholarship.

Director's Remarks and Acknowledgement of Staff, 2003-2004

As Director of the Office of Research Administration, I am pleased to have the opportunity to congratulate all of those faculty and staff who have applied for funding and those who have received awards.

Administering a project is not easy. Principal Investigators and Project Directors are bombarded with paper and electronic mail which must be handled. Personnel activity reports and financial disclosure forms have been a fact for more than a decade, and training requirements for all researchers on projects involving human subjects are a reality. New training protocols are on the horizon. Electronic proposal transmission is a requirement at the National Science Foundation, and it is being tested at other federal agencies and even in our own PSC-CUNY Research Award Program. The CUNY Research Foundation has moved heavily into electronic research administration. The staff of Research Administration joins me in saluting all who make the extra effort to meet these requirements.

While CUNY recognizes grant originating at Hunter in its statistics, faculty and staff also received individual awards and participated in a variety of CUNY grants and State-supported programs at a level of approximately \$5 million. Totaling everything, funding flowing through Hunter topped \$44 million.

I wish to thank the Research Administration staff for their participation in compiling this report:

Carolynn Julien	Associate Director <i>and IRB Coordinator</i> (<i>and responsible for the graphics in this report</i>)
Barbara Medina	Assistant Director for Project Personnel
Annamarie Rivera	Assistant Director for Sponsored Projects
Ana LoBiondo	Senior Administrative Assistant
Tara Smith	Administrative Assistant for Regulatory Affairs
Karlene Roberts	Administrative Assistant for Project Personnel
Malini Lall	Graduate Student Assistant
Michelle Guzman	Student Assistant
Halania Laurimore	Undergraduate Student Assistant
Michelle Anne Marasigan	Undergraduate Student Assistant
Amani Gheith	Undergraduate Student Assistant - IRB.

A word of welcome to **Jerome Richardson**, Field Services Representative of the CUNY Research Foundation, who is assigned to Hunter College and spends two days a week at the 68th Street Campus and two days per week at the Brookdale Campus in the Office of Research and Grant Support (ORGS) of the Schools of the Health Professions. Welcome also to Taina Colon and Miriam Uguala,, Undergraduate Assistants, who joined Research Administration in November, 2004.

Thanks also to my wife, **Lillian**, for contributing her time for consulting on the database in use for maintaining our grant histories.

SECTION I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies for Federal, State and City government, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning with Fiscal Year 1980 (July 1, 1979- June 30, 1980).

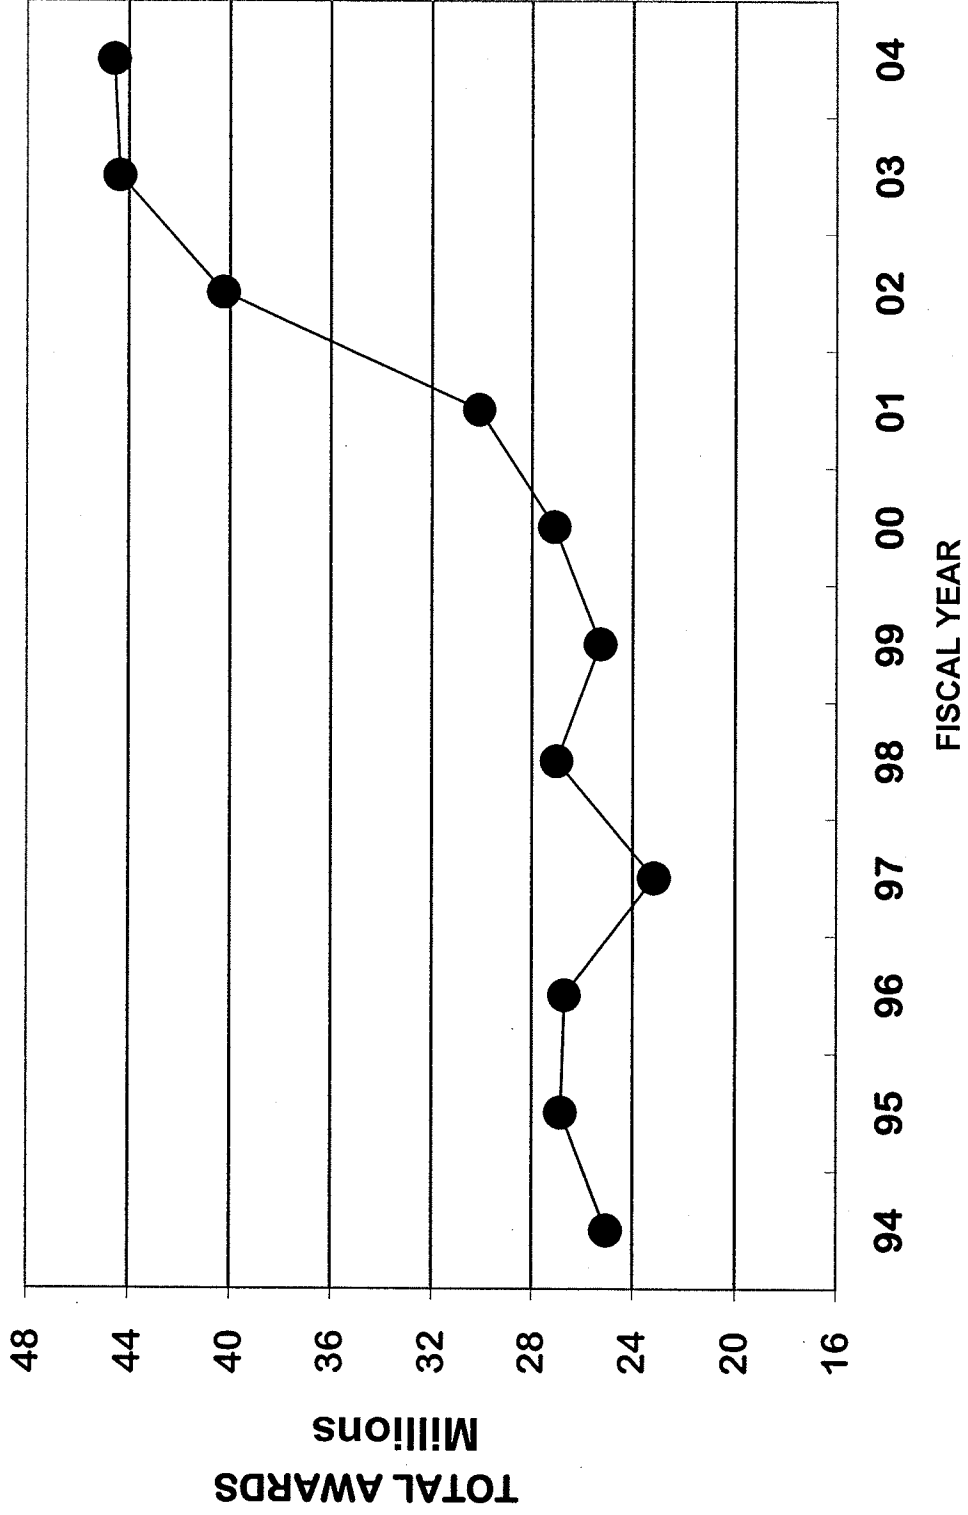

Grants and contracts have undergone remarkable growth during this period. Viewing awards in ten year increments, we used 1984 as the initial base year to illustrate growth.

SECTION IB – Individual Project Listing

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2004 (July 1, 2003 – June 30, 2004). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. We generally only count the portion available to the Hunter collaborator.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. 'Type' indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the 'status' gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

SECTION I-C: PROPOSAL SUBMISSIONS

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the funding authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2004 Hunter College had 656 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section. A record 270 individuals worked on proposals for external funding this year.

Some applicants submit the same proposal to more than one agency -- these proposals are counted separately. Others submit different proposals to one or more agencies.

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

PART II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

Section II-A PSC-CUNY Research Award Program

Section II-B Other Internal Support

SECTION IIA -- PSC-CUNY Research Award Program

In the 35 years of the PSC- CUNY Research Award Program, Hunter College faculty and staff have been awarded 2,273 grants for more than \$11.5 million. Grants are designed to encourage research and sometimes serve as pilot and seed money for larger endeavors.

The following pages of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

PART III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Total of External and Internal Funding

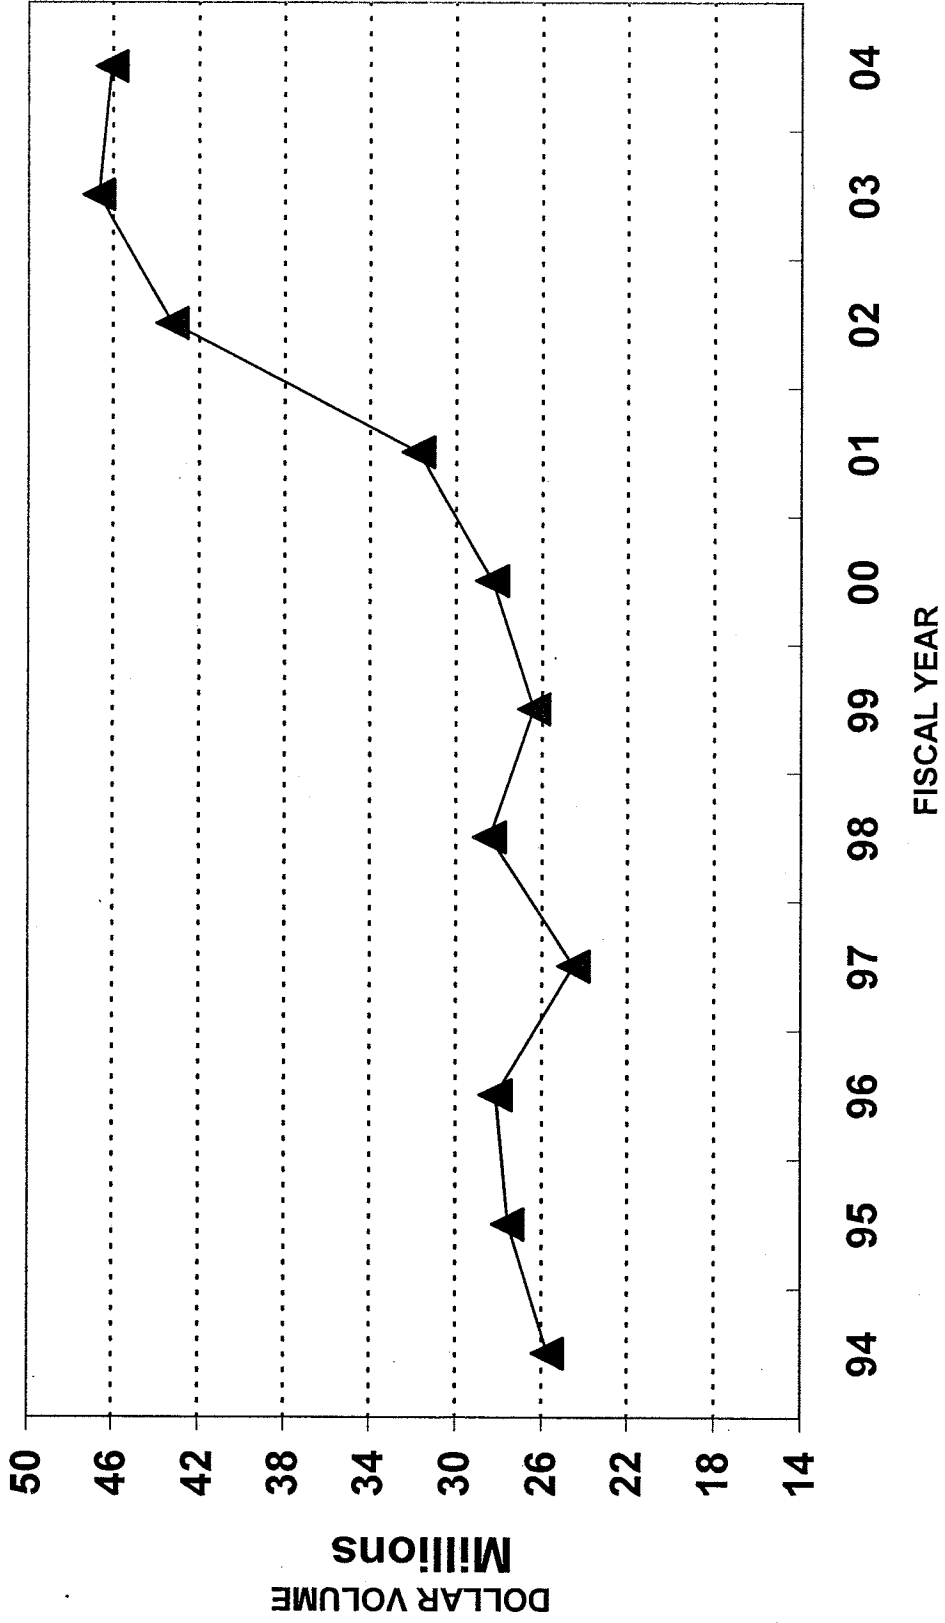

OVERALL SUMMARY OF PROJECT SUPPORT

At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.
