

Hunter College
of the
City University of New York

Annual Report
of
Grants and Contracts

July 1, 2005—June 30, 2006

Message from the President

The City University of New York's statistics for grant and contract awards administered through the Research Foundation show that Hunter led the colleges of the CUNY system in grants and contracts with more than \$40 million for the fiscal year that ended June 30, 2006.

Since its founding in 1870 Hunter College has enjoyed a national reputation as a leader in education. The College's second century began with a commitment to developing a strong research program. Each peer-reviewed publication and funded grant proposal demonstrate the success of the College's faculty and administration in elevating Hunter's profile.

At a time when colleges and universities are competing more fiercely than ever for government resources devoted to research grants, we are pleased that Hunter has been able to maintain its leadership position.

I extend my congratulations to everyone who has had a role in Hunter's record of achievement.

Jennifer J. Raab

Opening Remarks

We are delighted to report that Hunter College has sustained a strong commitment to obtaining grants and contracts for a variety of research and academic programs. Hunter has a wonderful mix of grants, taking in virtually every discipline at the College. Besides supporting a broad spectrum of research collaborations, and numerous training programs, Hunter also has a rich blend of grants in faculty development, program development, and student support.

Hunter's record of success in grants competitions has been instrumental in demonstrating to the academic world that Hunter is a vibrant place. This translates to attracting talented pools of applicants for faculty positions.

Grant and contract awards employ 600 people, many of whom are students. In addition, more than 500 students receive stipends or tuition support through successful proposals.

There is much more to obtaining and running a successful grant program than writing the initial proposal. We acknowledge principal investigators and their staff members who review the literature, obtain the RFPs, follow the guidelines, complete the many forms connected with grant applications, attend bidders and project directors' meetings, file the progress and final reports, and meet all the other requirements of a grant or contract award. A special salute to those who participate in review committees – these faculty and staff provide their expertise in the service of their fields.

Our appreciation also goes to the faculty, staff and community representatives who serve on the Institutional Review Boards, the Institutional Animal Care and Use Committee, and the Institutional Biohazards Committee.

Director's Remarks and Acknowledgement of Staff, 2005-2006

As Director of the Office of Research Administration, I am pleased to have the opportunity to acknowledge all of those faculty and staff who have applied for funding and congratulate those who have received awards.

Administering a project is not easy. Principal Investigators and Project Directors are bombarded with paper and electronic mail which must be handled. Electronic proposal transmission is now a requirement at many agencies. The CUNY Research Foundation has moved heavily into electronic research administration. The staff of Research Administration joins me in saluting all who make the extra effort to meet these requirements.

CUNY recognizes grants originating at Hunter in its statistics, and Hunter led the CUNY colleges in awards in four of the last five years. Faculty and staff also received individual awards and participated in a variety of CUNY grants and State-supported programs at a level of approximately \$3 million. Totalling everything, funding flowing through Hunter topped \$43 million in 2005-2006.

I wish to thank the members of the staff of the Office of Research Administration and the Institutional Review Board (IRB) Office for their work throughout the year and their participation in compiling this report:

| Karlene Roberts | Administrative Assistant for Project Personnel |
| Amanda Howard | Undergraduate Student Assistant |
| Nancy Igwe | Undergraduate Student Assistant |
| Yiciana Rodriguez | Undergraduate Student Assistant |
| Sarah Leon | Undergraduate Student Assistant - IRB. |

This year we also want to recognize **Jean Willis**, Hunter's Payroll Supervisor, and her office, which processed summer salary on more than 150 Hunter faculty members in 2006. Thanks to **Jerome Richardson**, Field Services Representative of the CUNY Research Foundation, who is assigned to Hunter, and to the staff members at the central Research Foundation of CUNY office who handle the documents, both paper and electronic, for approximately one thousand persons who work on Hunter projects during the course of a year. Thanks also to my wife, **Lillian**, for contributing her time for consulting on the database in use for maintaining our grant histories.

Robert J. Buckley, Director

Additional Acknowledgements

On behalf of the Hunter research community, we extend our gratitude to the members of the two IRBs which meet at least ten times a year to review research protocols involving human subjects and animals. These committee members have also been called upon in emergencies to review protocols, either in person or via conference call.

IRB reviews are conducted in compliance with regulations promulgated by the U. S. Office of Human Research Protections. This Committee must review all research protocols involving human subjects. During this past fiscal year, approximately 420 protocols were reviewed. The persons who served between July 1, 2005 and June 30, 2006 were the following:

Institutional Review Board (IRB)

SECTION I-A: OVERVIEW OF EXTERNAL FUNDING

This section contains statistical information on grants and contracts from external sources, i.e., agencies for Federal, State and City government, foundations, corporations, and non-profit organizations. For the sake of making comparisons, figures are given for the quarter century beginning with Fiscal Year 1982 (July 1, 1981- June 30, 1982).

Grants and contracts have undergone remarkable growth during this period. Viewing awards in ten year increments, we used 1984 as the initial base year to illustrate growth.

SECTION IB – Individual Project Listing

This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2006 (July 1, 2005 – June 30, 2006). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. We generally only count the portion available to the Hunter collaborator.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. 'Type' indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the 'status' gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

SECTION I-C: PROPOSAL SUBMISSIONS

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the funding authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2006 Hunter College had 621 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

*Some applicants submit the same proposal to more than one agency – these proposals are counted separately.
Others submit different proposals to one or more agencies.*

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

PART II: INTERNAL FUNDING OF PROJECTS

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

Section II-A PSC-CUNY Research Award Program

Section II-B Other Internal Support

SECTION IIA – PSC-CUNY Research Award Program

The Board of Trustees of the City University of New York and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. Applicants for the most recent competition could request a maximum of \$6,000 for research support. Proposals are peer reviewed by one of more than 30 disciplinary panels.

In the 37 years of the PSC- CUNY Research Award Program, Hunter College faculty and staff have been awarded more than 2,500 grants valued at more than \$12.3 million. Grants are designed to encourage research and sometimes serve as pilot and seed money for larger endeavors.

The following pages of this section gives a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

PART III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Total of External and Internal Funding

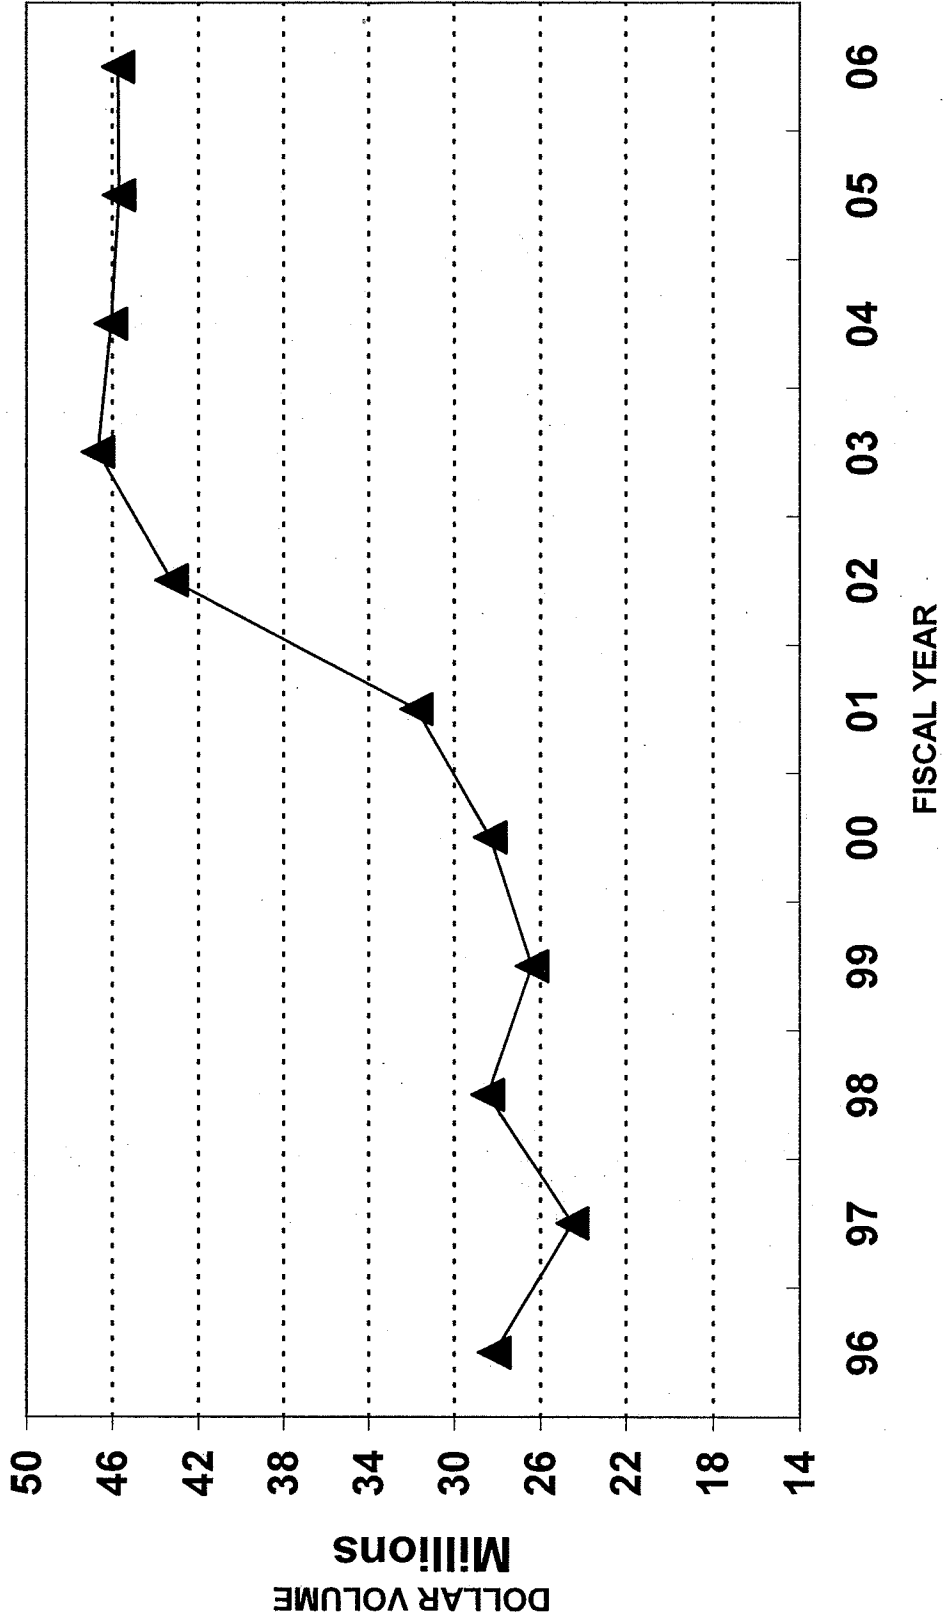

OVERALL SUMMARY OF PROJECT SUPPORT

At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.
