This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2012 (July 1, 2010 – June 30, 2011). Also included are grants made directly to individuals (e.g., fellowships), but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators at other CUNY schools. We generally only count the portion of funds available to the Hunter collaborator.

Awards are arranged alphabetically by academic and administrative regions. Within that framework, awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number and remarks. Among other data shown are the Research Foundation account number and the award period. 'Type' indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the 'status' gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.

The projects are listed as follows:

The count of proposal submissions includes:

- a. proposals for new funding;
- b. proposals submitted at the end of a funding cycle for review in competitions for renewed funding;
- c. progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal in order to gain the funding authorization for another year of support.

Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are included only once.

In fiscal 2011 Hunter College had 771 submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.

\* Increase in proposals and progress reports was partially attributable to American Recovery & Reinvestment Act (ARRA).

Some applicants submit the same proposal to more than one agency -- these proposals are counted separately. Others submit different proposals to one or more agencies.

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

A wide range of other projects received support from College and University funds.

This part is divided into two sections:

**Section II-A** PSC-CUNY Research Award Program

**Section II-B** Other Internal Support

The Board of Trustees of the City University of New York and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC), demonstrate their recognition of the importance of encouraging research activities in the CUNY system by funding a competitive research award program. In a three-year pilot program, applicants for the 42<sup>nd</sup> Annual Competition could request funds for research support at one of three levels:

- Traditional A – Grants up to \$3,500
- Traditional B – Grants up to \$6,000
- Enhanced – highly competitive grants up to \$12,000

In the 42 years of the PSC-CUNY Research Award Program, Hunter College faculty and staff have been awarded 2,960 grants valued at more than \$14.1 million. Grants are designed to encourage research and sometimes serve as pilot and seed money for larger endeavors.

The following pages of this section give a statistical history of the participation of Hunter faculty in the program since its inception. The individual project listing for this year follows. Awards are arranged by academic region and may be found as follows:

# PART III: OVERALL SUMMARY OF PROJECT SUPPORT

Grand Total of External and Internal Funding

At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external awards detailed in Section I-A and I-B of this report, plus fellowship and other grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent here is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth of project support over the past 25 years.

***Director's Remarks and Acknowledgement of Staff, 2010-2011***

Hunter faculty and staff surpassed the \$50 million plateau in grant and contract awards for the second consecutive year.

This report lists all the external and internal grants in support of faculty research, institutional training and other sponsored activities.

In our report, we also include faculty and staff who received individual fellowships and awards, and participated in a variety of grants awarded to CUNY, along with State-supported programs and projects with non-CUNY collaborators. These various awards exceeded \$5 million. Totaling everything, funding from sources outside CUNY flowing through Hunter topped \$56 million in 2010-2011.

This report would not be possible without the year-round work of the staff of the Office of Research Administration (**Carolynn Julien, Barbara Medina-Garcia, Annmarie Rivera, and Karlene Roberts**). We also thank our part-time staff (**Janet Echeverry, Krystal Santiago, Sujeidy Morales, and Rimi Dhar**).

We acknowledge **Jean Willis**, Hunter's Payroll Supervisor, and her office staff -- they again processed grant-supported summer salaries on more than 150 Hunter faculty members in 2011.

Our thanks to our colleagues at the CUNY Research Foundation central office -- the efforts of many staff members helped in the processing of payrolls for more than 500 grant employees in each biweekly pay period, stipends and tuition for more than 400 students, faculty summer salary, released time, and professional effort, as well as in setting up accounts, processing vendor payments and reports, executing agreements, submitting financial reports, and the many other tasks required to keep a grants and contracts operation running.

We also recognize the Office of the Vice Chancellor for Research, without which various CUNY grant programs would not be possible.

September, 2011

  
**Robert J. Buckley, Director**

### ***Additional Acknowledgements***

*Our gratitude to the members of the two IRB and the IACUC, each of which convened at least ten times in 2010-2011 to review research protocols involving human subjects and animals, and the members of the IBC. In addition to regularly scheduled meetings, committee members have also been called upon in emergencies to review protocols, either in person or via conference call, and visit laboratories.*

### **Institutional Review Board (IRB )**

*(also known as the **Committee for the Protection of Human Subjects from Research Risks**)*

*IRB reviews are conducted in compliance with regulations promulgated by the U. S. Office of Human Research Protections. This Committee must review all research protocols involving human subjects. During 2011, 884 protocols were reviewed, a significant increase from prior years. The persons who served:*
