## **Section I-B: Individual Project Listing**

**This section lists the individual projects that comprised the grants and contracts sponsored by external sources during fiscal year 2017 (July 1, 2016 – June 30, 2017). Also included are grants made directly to individuals (e.g., fellowships) but these figures are not included in the previous section's overall statistics on institutionally administered awards. In several cases, Hunter faculty have co-principal investigators at other institutions or serve as project associates to principal investigators of other CUNY schools. We general only count the portion of funds available to the Hunter collaborator.**

**Awards are arranged alphabetically by academic and administrative regions. Awards are organized first by department and then by faculty member. Entries include the name of the funding agency and, when applicable, the agency identification number. Among other data shown are the Research Foundation account number and the award period. "Type" indicates whether the award is new, a continuation (i.e., non-competitive but contingent on sufficient progress having been demonstrated to warrant continued funding), a renewal (after competitive review of an ongoing project), or a supplement (additional funding to complete or extend the scope of the original project). When applicable, the "status" gives the length of the project in years and whether the agency has indicated its intention to continue funding on a non-competitive basis beyond the current period.**

The projects are listed as follows:

### **Section I-C: Proposal Submissions**

**The count of proposal submissions includes:**

- a. Proposals for new funding;**
- b. Proposals submitted at the end of a funding cycle for review in competition for renewed funding;**
- c. Progress reports which, although not competing with other applicants for funding, must demonstrate sufficient advancement towards the project's goal(s) in order to gain the funding authorization for another period of support.**

**Identical or similar proposals submitted to more than one agency are counted separately. Preliminary and final proposals prepared for the same agency are only counted once.**

**In fiscal year 2017, Hunter College had                      submissions. Some statistical information and the listing of individual faculty and staff applicants are shown in this section.**

## ANNUAL STATISTICS ON NUMBERS OF APPLICANTS AND PROPOSALS AND THE RECORD OF SUCCESS

This table shows the growth in the number of faculty and staff applying for grants and contracts, the increase in proposal submissions, and the statistics on awards to the College over the last quarter century.

\* Increase in proposals and progress reports was partially attributable to American Recovery & Reinvestment Act (ARRA).

\*\* Decrease in statistics in 2017 due to transfer of faculty, proposals and grants to CUNY Graduate School of Public Health & Health Policy.

Some applicants submit the same proposal to more than one agency -- these proposals are counted separately. Others submit different proposals to one or more agencies.

The terms "Principal Investigator" and "Project Director" are used to signify successful applicants, i.e., persons who receive awards. Many faculty members direct more than one project.

As agencies frequently take 6-12 months to complete the review of a proposal, approximately half of the proposals submitted in one fiscal year do not have a final determination until the next year.

## Section II-A: PSC-CUNY Research Award Program

The Board of Trustees of the City University of New York and the collective bargaining agent for the instructional staff, the Professional Staff Congress (PSC) demonstrate their recognition of the importance of encouraging research and creative activities in the CUNY system by funding a competitive research award program. Applicants for the 48<sup>th</sup> annual competition could request grants on one of three categories:

- Traditional A – grants up to \$3,500
- Traditional B – grant from \$3,501 to \$6,000
- Enhanced – grants from \$6,100 to \$12,000.

In the 47 prior years of the PSC-CUNY Research Award Program, Hunter faculty and staff have been awarded 3,418 grants valued at more than \$16.4 million. Grants are designed for research and/or creative activity and sometimes serve as pilot and seed money for larger endeavors.

The following pages give a statistical history over the last decade. Individual awards are listed:

### **Part III: Overall Summary of Project Support**

#### **Grand Total of External and Internal Funding**

**At the conclusion of this report, we present statistical tables incorporating various award data available for the last quarter century. The information in this section includes the external award detailed in Sections I-A and I-B, plus fellowships and grants not administered through Hunter, the PSC-CUNY Research Award Program (Section II-A) and other internal support (Section II-B). The intent is to present as broad a picture as possible of the support obtained by faculty and staff. This section shows the tremendous growth over the last 25 years.**

**Director's Remarks and Acknowledgement of Staff, 2016-2017**

In the ever more competitive arena of grant submissions, Hunter's grant and contract awards reached \$59.9 million, the highest figure among CUNY colleges and schools this year. Congratulations to all the faculty and staff for this achievement.

My thanks to the staff of the Office of Research Administration:
